We start counting words after the heading of "Education and Qualifications."

Good College of Hope, University of Hopesville, twenty year resident of County.

I am a native of this County and have been married for 30 years; we have two children, ages 20 and 25.

Community Involvement:

1. I have been a Communications Officer with the Hopesville Community Involvement Crisis Team since 1990.
2. I have also been an active volunteer at the Good Hope Crisis Center since 1984.
3. I organized the first crisis team in this county and have expanded our program in educating schools in helping to prevent and refer any crisis that may occur.

I am interested in furthering the education of not only school personnel but of the children and parents. Their involvement in preventing crisis is the most important issue at the present time. I would like to start a volunteer service for outreach areas. To do this, I need your support. You may think you cannot give anything, but that old saying "Every little bit helps" goes a long way. Every little bit could mean your time, your car for transportation, food, clothing, tools, equipment, furniture, etc. Support does not always mean money, your personal giving is more important to me.

Please vote on Election Day!
