Guillermo Wagner Granizo’s 11 by 45 foot Monterey Mural was commissioned in 1984 for the Monterey Conference Center. 663 tiles depict 150 scenes from Monterey’s history, showcasing Monterey’s panorama of history with Granizo’s great sense of humor. It had been in storage and restored during the Conference Center renovation. Come join the community as we celebrate the return of this iconic mosaic.

“As a result of experiencing some life changing events during WWII, our father developed his artistic talents and turned his creativity into something for people to enjoy. The Monterey Mural is one of his most creative and captivating examples of his art.” ~ Ron Wagner, son of muralist
